

ACKNOWLEDGEMENTS

This Interim African Water Development Report was prepared for review at the Pan African Implementation and Partnership Conference on Water (PANAFCON) held in Addis Ababa, Ethiopia in December 2003 to round off the International Year for Freshwater (IYFW). It is one of the tangible outcomes of the joint collaborative efforts of all UN Agencies active in the water sector in Africa, UN-Water/Africa and affiliated institutions /experts at the national level. This process was undertaken under the general direction of all the Heads of the participating agencies. Dr. Kinsley Yaw Amoako, Under-Secretary General & Executive Secretary of the Economic Commission for Africa, provided specific support and encouragement. We also acknowledge the support provided by Dr. Josue Dione both as Chairman of UN Water/Africa and Director at ECA.

The Netherlands Ministry of Development Cooperation provided the seed funding for the AWDR process as part of its support to the UN-Water/Africa.

As Coordinator of the AWDR process, I will like to acknowledge with thanks the invaluable contribution of all the Agencies, Reviewers and National Writers. It is difficult to name all who have contributed to this edition but special appreciation goes to Dr. Kwadwo Andah of the University of Perugia for the excellent synthesis of the Report, and to those who wrote the country reports: Boukari Moussa (Benin), Denis Barandemje (Burundi), Mathias Fonteh (Cameroon), Jean-Michelle Ossette (Republic of Congo), Tanania Kabobo (Democratic Republic of Congo), Kefyalew Achamyeleh (Ethiopia), Lasseny C. Olivier (Gabon), Abdelkader Dodo (Niger), Mathew Offodile (Nigeria), Cheikh H. Kane (Senegal).

Special appreciation goes to the members of the ECA Communication Team led by the indefatigable Yinka Adeyemi for guiding the publication process of this Interim Edition of the African Water Development Report 2004.

Stephen Maxwell Donkor
Coordinator, UN Water/Africa
