NDC 2.0 Commitment Process

Key African NDC Principles

- 1 **Environmental Outcomes**
Avoided emissions while increasing energy access & responding to climate impacts
- 2 **Transformative Potential**
Systems change & socio-economic transformation centered on sustainable development
- 3 **Distributive Outcomes**
Transcending structural inequities toward shared prosperity
- 4 **Economic Performance**
Context-specific efficiency & cost-effectiveness for African countries
- 5 **Institutional Strength**
Capacity building for climate action, innovation & industrialization

Decision-Making Process

Principles derived from criteria for effective international cooperation in Chapter 14 of the IPCC 6AR Working Group III

The decision-making process is a framework that can be customized with an option of further elaboration for specific characteristics of countries

Regional Organizations

GST-1 Outcomes Relevant To Regional Organizations

- The GST.1 highlighted the critical role of enhanced international cooperation in addressing climate change:
 - Particularly in the context of sustainable development and poverty eradication,
 - Specially for countries with significant capacity constraints; and
 - For enhancing climate action across all actors of society, sectors and regions.
- GST-1 outcome calls on MDBs and other financial institutions to further scale up investments in climate action; and
- Calls for continued increase in the scale, and effectiveness of, and simplified access to, climate finance, including in the form of grants and other highly concessional forms of finance.
- Invites organization to provide capacity-building support for the preparation and communication of the NDC.2;

Regional Organizations Support Enhanced Climate Action In Africa

- African countries suffer lack of adequate, predictable and accessible climate support both finance and technology.
- Many countries also lack adequate information and knowledge about available support and lack technical capacity to access finance.
- Regional organizations expected role includes:
 - Take a lead in mobilizing and providing more coherent, coordinated and timely financial and technical support to the African countries
 - Assist African countries with provision and access to financial and technical support for the preparation of NDC.2
 - Integration of GST1 outcome in the context of the African countries development priorities and circumstances
 - Supporting African countries in the implementation and enhancement of climate actions over time
