

# Presentation outline

- Who we are (technology and innovation)
- Challenges faced (Climate & entrepreneurial)
- Results achieved

# What we do

a. Capacity building of smallholder farmers

b. Greenhouse systems for year round production

c. Solar powered irrigation systems

a. Frozen Vegetables

b. Dehydrated Vegetables

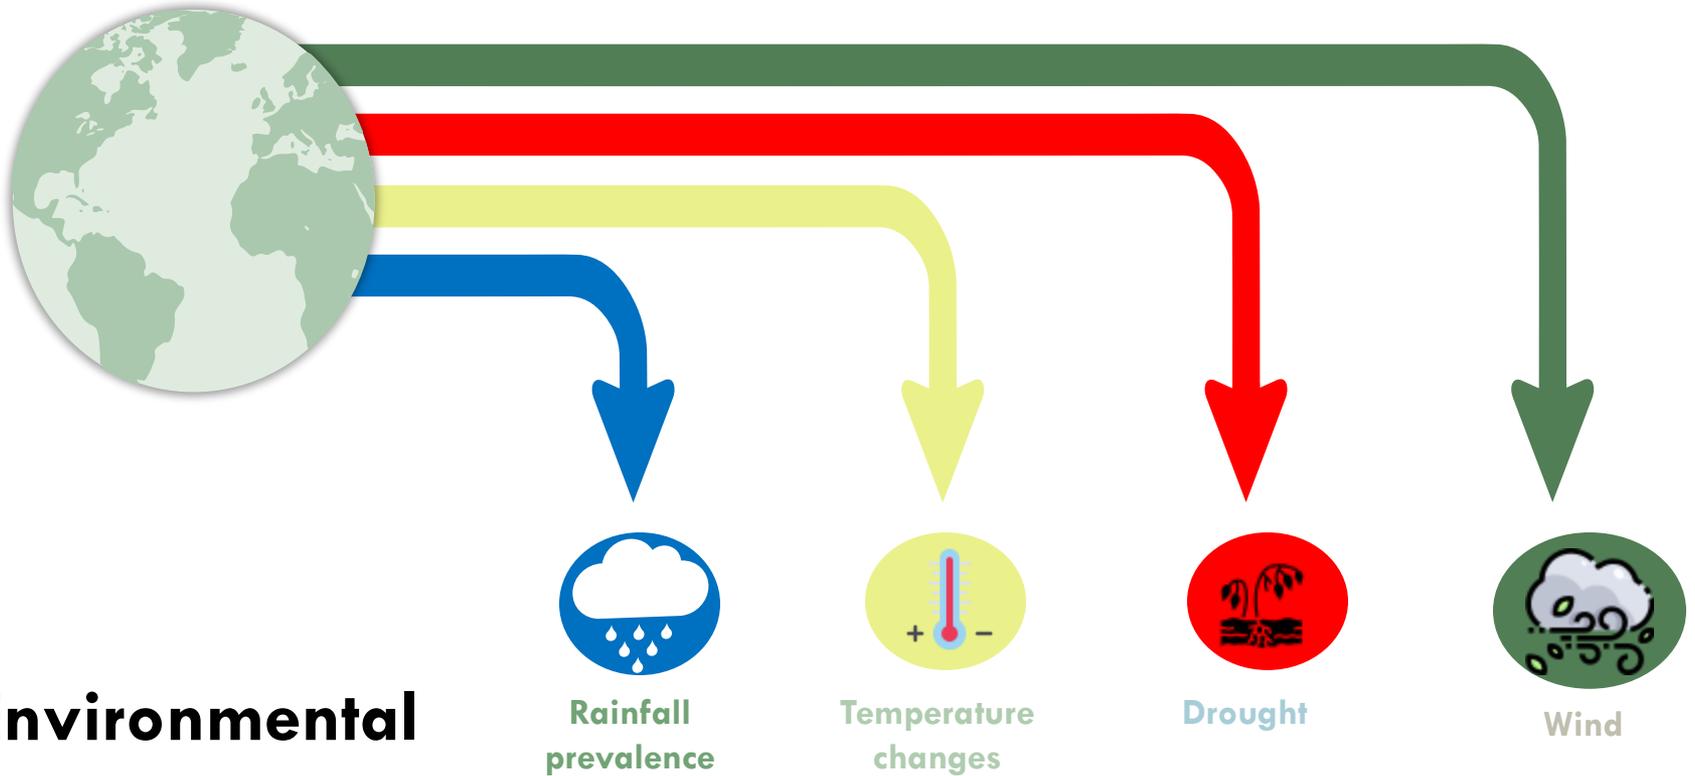

Smallholder farmers ←

Transformation →

Market

# Challenges faced

## Environmental Challenges

# Results achieved

- Increase in the number of cooperatives (10) new
- Increase in the number of smallholder farmers 257
- Free training and capacity building of staff and farmers
- Increase in production from 100kg-1000kg of fresh vegetables weekly
- Larger transformation and storage capacities
- Construction of low cost greenhouses
