

**Federation of United Nations Staff Associations in Ethiopia**  
**Fédération des Syndicats du Personnel des Nations Unies En Ethiopie**

Date: 15 June 2022

Dear Colleagues;

Greetings to you and your families.

I am coming to you to alert you about **the Covid-19 new wave currently in Ethiopia we all need to - take precautions.**

FUNSA, the Federation of your Staff Unions, has noticed that although we are at Phase 2 of "Return to Office" which allow only 40 to 50% of the staff to be on campus, it seems that there is No control mechanism for that and No monitoring of prevention practice in the UN compound.

Managers are all supposed to reinforce the 40 to 50% occupancy limit and not let the free flow which seems to be the case right now. The Federation of Staff Unions is calling on all staff to respect the Covid Prevention practice and health measures on campus.

- **PLEASE WEAR YOUR MASK, IT IS MANDATORY WHILE ON CAMPUS.**
- **PLEASE MAINTAIN 1.5 m SOCIAL DISTANCING AT ALL TIME**
- **PLEASE VENTILATE YOUR OFFICE, NEVER SHAKE HAND AND WASH OR SANITIZE YOUR HAND AS NEEDED**
- **PLEASE COMPLY WITH 2 PERSON MAXIMUM OCCUPANCY IN ELEVATORS**

PS: The week of May 30 to June 3<sup>rd</sup>, 2022 here were 29 cases of Covid in UN Population,

The week of June 6 to June 10, 2022 it increased to 74 cases, For this week? who know how much it will be???

**Please let's take care of each other.**

Thank you  
FUNSA Leadership
