Institutional Alignment and Collaboration in National ID and eCRVS

Angela Anatory
Chief Executive Officer/Administrator General
Introduction

16.9 By 2030, provide legal identity for all, including birth registration

Article 6 of the African Charter on the Rights and Welfare of the Child contains provisions relating to naming, acquisition of nationality, and birth registration

Article 3.1 of Tanzania Vision 2025 on provision of high quality of life
Systems Situation at RITA before eRITA

Current Issues:
1. Silo Systems
2. No Integration
3. Reports are not generic
4. Different Certificate Numbers every system generates unique ID
5. External integration not harmonized
6. Not all systems issue certificates
7. No feedback mechanism to the public
8. Unreliable performance
9. Only functional for birth and death
Effects

**Massive Exclusions**
- Social benefits and the Poor
- Socio-economic Planning
- Claim of entitlements
- Basic rights

**Security Issues**
- Physical: Law and Order
- Business Environment
- Multiple/ghost/duplicate identities
- Frauds: Identity related Frauds & Scam
- Terrorism

**Undeveloped Sectors**
*(Financial, Industrial, Agricultural etc.)*
- Credit Bureau
- Consumer Credit
- Mortgage and other sectors
- Financial Inclusion

**Consequence**

- Huge investment/infrastructure Cost
- High operational cost
- Maintenance of multiple & costly “silos ID databases”
- Creation of Idle Assets

**Duplication of Systems and Efforts**
eRITA System Overview
Roadmap for Integration

**Short-Term**
- Revision of Laws and Policies
- Integration of CRVS and National ID Systems
- Enhancement of support Systems (LGA, Health Centers, DAS offices)
- Registration Backlog Clearance

**Long-Term**
- One Policy on CR and National ID Registration
- Full automation and integration of the systems
- Timely registration of event
Way Forward

Tanzania National ID & CRVs Integration
