In conclusion:

- ECA contributes to all 17 GOALs of the sustainable development agenda and coordinates overall progress and reporting in Africa.

- Its contribution relies also on a vast spectrum of partners at regional, sub regional and national levels.

- Most of this contribution would not have been possible without the support we got from you member States as well as the African Union Commission and our sisters organizations of the United Nations system most of whom are represented here.

- Its contribution covers a vast array of activities ranging from the design of compliant development plans, implementation, reporting and follow up of national planning frameworks to the development of knowledge products to inform policy action in Africa.

- We have provided examples of our institutional contribution and look forward to continue collaborating with you in ensuring No One is Left Behind in our continent.
