Process of development of an Integrated Result Framework for Agenda 2030 and Agenda 2063

United Nations Economic Commission for Africa (UNECA)

ARFSD, 17-19 May 2016
Cairo, Egypt
CONTENTS

1. Context
2. Agenda 2030 result framework
3. Agenda 2063 result framework
4. Convergence at goals level
5. Mapping at targets level
6. National indicators framework
7. Continental indicators framework
8. Proposed next steps
1. Context

“42. We support the implementation of relevant strategies and programmes of action, ... and reaffirm the importance of supporting the African Union’s Agenda 2063 and the programme of the New Partnership for Africa’s Development, all of which are integral to the new Agenda....”

From Resolution adopted by the General Assembly on 25 September 2015
“We recognize that reporting on these two apparently separate frameworks could prove to be onerous and thus recommend that a unified reporting platform should be set in place consistent with the equivalence of goals and targets established through the goal, indicator mapping and costing exercise that has been undertaken”

From the Ministerial Statement – 4-5 April 2016
... Context

“We take note of the huge capacity requirements for the implementation of both Agenda 2063 and the 2030 Agenda and the critical importance of prioritizing related capacity-building at all levels”

From the Ministerial Statement – 4-5 April 2016
2. Agenda 2030 result framework

• **General Assembly** committed to fully engage in conducting regular and inclusive reviews of *progress* at *national*, *continental* and *global* levels

• Members States committed to engaging in systematic follow-up and review of the implementation of this Agenda over the next 15 years. The Goals and targets will be followed up and reviewed using a set of global indicators.
In March 2016, the Statistical Commission agreed, as a practical starting point, on a set of over 230 global indicators proposed by the IAEG-SDGs, subject to future technical refinement.

The Global list of indicators will be complemented by indicators at the continental and national levels which will be developed by Member States, in addition to the outcomes of work undertaken for the development of the baselines for those targets where national and global baseline data does not yet exist.
... Agenda 2030 result framework

- **At national level:** Members States are encourage to conduct regular and inclusive reviews of progress at the national and subnational levels which are country-led and country driven.

- **At Regional level:** Inclusive regional processes will draw on national-level reviews and contribute to follow-up and review at the global level, including at the high level political forum on sustainable development.

- **At Global level:** Follow-up and review at the high-level political forum will be informed by an annual progress report on the Sustainable Development Goals to be prepared by the Secretary-General in cooperation with the United Nations system, based on the global indicator framework and data produced by national statistical systems and information collected at the regional level.
3. Agenda 2063 Result Framework

• The result framework for the Agenda 2063 represents a logical relationship between:
  ➢ The AU Vision,
  ➢ The Seven African Aspirations,
  ➢ The Goal/Priority areas under each aspiration and the associated targets.

• A Ten Year Implementation Plan of Agenda 2063 (2014 -2023) was adopted by the June 2015 meetings of the AU Policy Organs.
... Agenda 2063 Result Framework

• The First Ten Year Results Framework is deduced from the Agenda 2063 Results Framework as contained in the Agenda 2063 Framework document.

• Specifically in terms of monitoring and evaluation, the First Ten Year Plan Results Framework will be used as the: (i) reference point for measuring the progress towards the attainment of the goals, aspirations and the African Union Vision over the plan period (ii) framework for assigning and assessing the performance accountabilities of all stakeholders with respect to implementation effectiveness and (iii) process for gathering insights for the development of the Second Ten Year Plan Framework.

• A set of indicators have been developed including the identification of a core set of indicators at the continental level.
# 4. Convergence at Goals Level

<table>
<thead>
<tr>
<th>Agenda 2063 Goals</th>
<th>Priority Areas of Agenda 2063</th>
<th>SDGs Goals</th>
</tr>
</thead>
</table>
| **1.** A high standard of living, quality of life and well-being for all citizens | • Incomes, jobs and decent work  
• Poverty, inequality and hunger  
• Social security and protection, including persons with disabilities  
• Modern, affordable and livable habitats and quality basic services | Goals no 1, 2, 8 and 11              |
| **2.** Well educated citizens and skills revolution underpinned by science, technology and innovation | • Education and science, technology and innovation (STI) driven skills revolution | Goal no 4                           |
| **3.** Healthy and well-nourished citizens                                      | • Health and nutrition                                                                      | Goal no. 3                          |
| **4.** Transformed economies                                                     | • Sustainable and inclusive economic growth  
• STI driven manufacturing, industrialization and value addition  
• Economic diversification and resilience | Goals no. 8 and 9                         |
| **5.** Modern agriculture for increased productivity and production             | • Agricultural productivity and production                                                  | Goal no 2                           |
## 5. Mapping at targets level

**Aspiration 1:** A Prosperous Africa Based on Inclusive Growth and Sustainable Development

**Goal 1:** A High Standard of Living, Quality of Life and Well Being for All

**Priority Area 1:** Incomes, Jobs and Decent Work

…Mapping at targets level

Result of targets mapping of the two Agendas

• Matching was done at the target level starting with Agenda 2063 national targets and then identifying the corresponding Agenda 2030 target(s)
• It was found that the targets from both do not exactly match but overlap
• One Agenda 2063 national target could overlap with one or more Agenda 2030 targets and there can be Agenda 2063 national target which does not overlap with any of the Agenda 2030 targets
• The targets for Agenda 2063 are national while the Agenda 2030 targets are universal.
... Mapping at targets level

... Result of targets mapping of the two Agendas

- There are 174 national targets in Agenda 2063, out of which 36 (21%) do not have any overlapping Agenda 2030 targets.
- There are 56 out of 169 Agenda 2030 targets (33%) for which there are no overlapping Agenda 2063 national targets.
- There are 66 out of 174 Agenda 2063 targets (39%) which overlap with exactly one Agenda 2030 target each, and rest that overlap with two or more targets.
6. National indicators framework

Proposed National indicators framework

- Agenda 2030
- Agenda 2063
- NDPs
- Thematic programmes
6. Continental indicators framework

Proposed Continental indicators framework
Challenges in development of regional and continental indicators

- Large number of indicators
- Capacity challenges
- Increased demand for technical assistance
8. Proposed next steps

• **Continental set of core indicators** Agenda 2063+Agenda 2030 *should be finalized*;

• Baseline work at national and continental levels to be done;

• Mobilization of UN System and other partners support at continental and national levels.
Thank You
