

LE PLAN D'ACTION DE LAGOS (PAL) ET LA STRATEGIE POUR SA MISE EN PLACE

SÉRIE SUR L'INDUSTRIALISATION DE L'AFRIQUE ÉMERGENTE

The Lagos Plan of Action (LPA)

The LPA considers industrialisation as a means of achieving self-sufficiency and autonomous development. It identifies priorities for action at national, regional, continental and international levels regarding the following :
diversification of products and exports,
management of natural resources, infrastructure, human capital, science and technology, compliance with standards, institutional frameworks and resources mobilisation.

LPA implementation strategy

The objectives of the LPA implementation strategy are as follows: the integration of African societies into global value chains and the establishment of backward links with producers of basic products and upward links with local SME
